

FIG. 1A

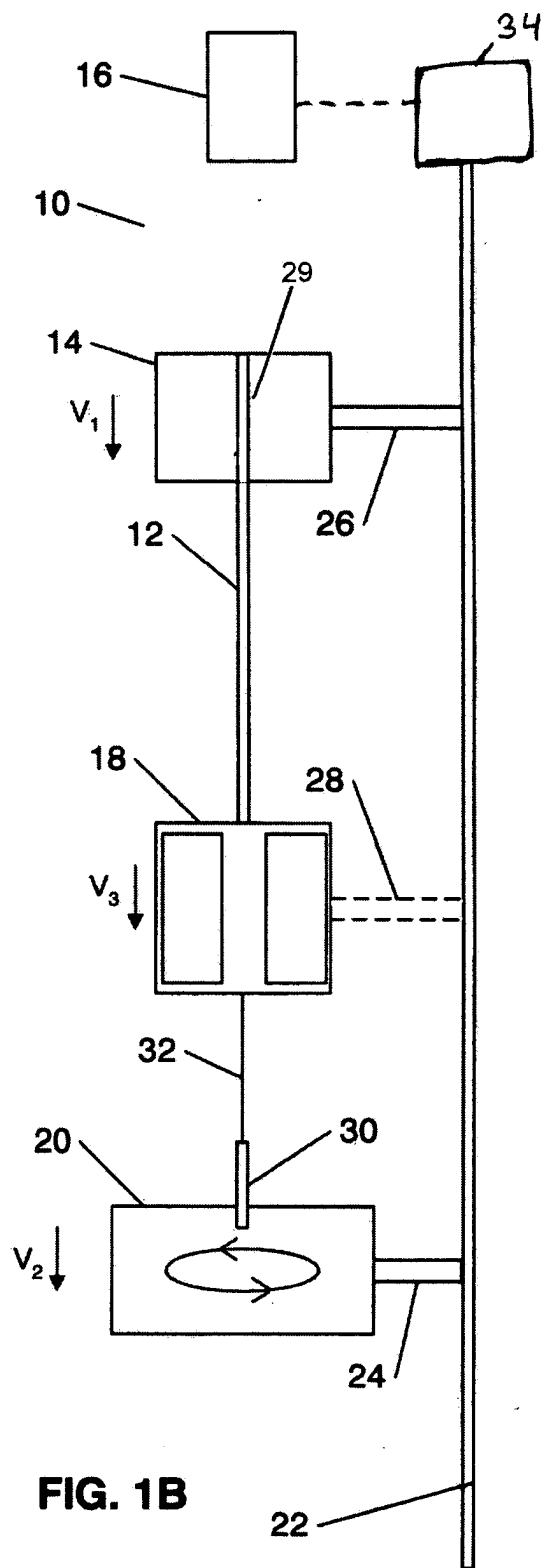

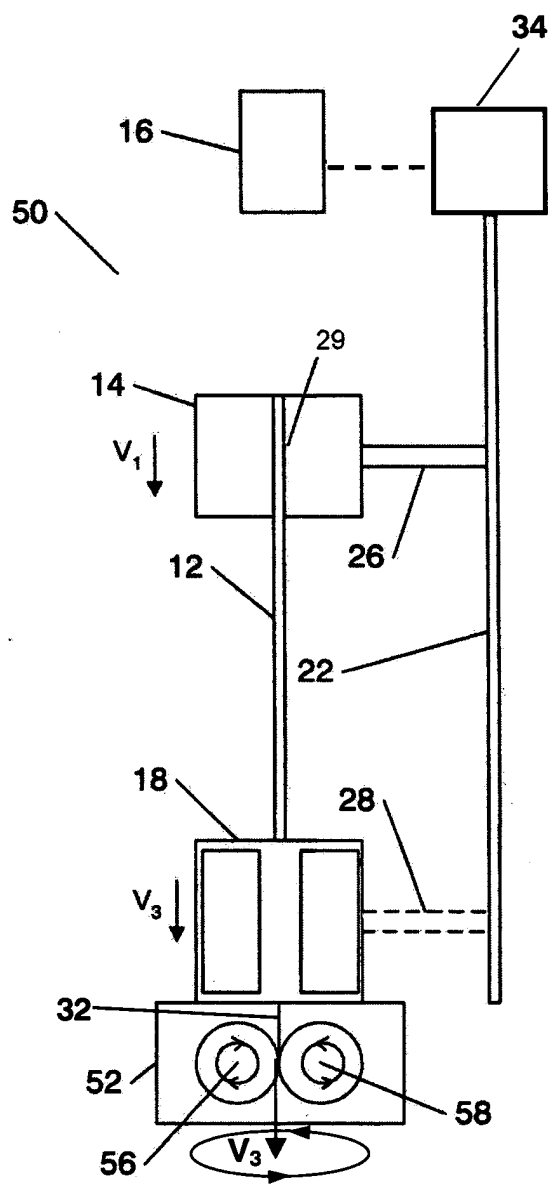

FIG. 1B

The diagram illustrates a mechanical system with the following labeled parts:

- 50**: The main body or housing at the top.
- 16**: A rectangular component located below the main body.
- 14**: A square component positioned below the rectangular one.
- 29**: A small opening or port in the square component.
- 12**: A long vertical shaft passing through the center of the assembly.
- 26**: A horizontal connecting arm or pipe.
- 22**: A vertical support or guide rod.
- 18**: Two rectangular blocks situated near the bottom of the shaft.
- 28**: A dashed line indicating a connection or path from the lower blocks towards the right side.
- 30**: A rectangular base or support structure at the very bottom.
- 52**: The outer frame or casing of the base.
- 56** and **58**: Two circular openings or ports on the front face of the base.
- 34**: A rectangular component on the far right, connected via a dashed line to the upper part of the assembly.
